**HELLO KIDS ...!!!**

- After reading this story, Think of a suitable title for this story and fill in the empty text box beside our title of this story! It’s lot of fun to give a title for this story. I bet you roll on the floor by the time you end up with a right title.
- Also, this story has good morals. You think of some morals and good characteristics you liked about our Hero of this story- ‘Monkey leader’ and tell it to your parents!
- Finally, after finishing story, remember the new Telugu words you learned in this story...Here’s the deal ...You deserve a candy for each new word you remember. So collect them from your parents.

- బయుపాలు! ఈ వారిలో రబ్రా (హడుగా దానికి) చాల! నేడు వాండల్స్? ఈ రాదులు యుక్తి కావిలో దానిలే. యుత్తు నీల ఉండాలి యునాపితే కురుకు...చర్మితి ముగ్గురు తానానం...చర్మితి యురి ఉండాలి... ఇది దీని కావి కావి కదిలు చాలు.
- అరగ ఈ రాదులు మేన్ నేడు మామ్ముడు అవి...మామ్ముడు “పోచియాచార అమలే” లేని దాని కోసం చాల మామ్ముడు characterisrics నిమిదందూ ఇందులో సేవాచారం చేసే...డాక్టర్ బిందు బిందు మామ్ముడు ఆయా సాదుచేతు ప్రథమ బ్యాసన చేస్తుంది?
- ఇక్కడి డెక్చింగ్, మామ్ముడు నెన్ని ప్రతి మామ్ముడు డెక్చింగ్...ప్రతి మామ్ముడు ప్రతి డాక్టర్...Candies చాలు వుండి మామ్ముడు చాలు. Isn’t it a good deal?!

*This Story is based on ‘Jataka Tales’ and retold by Editor with small changes to the original one.*
What's the news?!

Many of you, the curious kids might have already known that The Nobel Peace Prize 2014** was awarded jointly to Kailash Satyarthi and Malala Yousafzay. This is in recognition for their struggle against the suppression of children and young people and for the right of all children to education.

**What is Nobel Peace Prize?!!

Nobel Peace Prize is one of the prestigious annual prizes that are given to most important work that shows great impact on mankind. These prizes are given in 5 fields... Physics, Chemistry, Medicine, Literature and working for Peace. These are the prizes awarded annually by four institutions (three Swedish and one Norwegian) from a fund established under the will* of Alfred B. Nobel.

(*Will: A document in which a person specifies the distribution of his properties after his death. Also, it contains the management of his properties)

Alfred B. Nobel was a chemist and inventor of Dynamite. He was a very wealthy person and he wanted to give away his properties to establish a fund for instituting this prestigious award. Alfred Nobel mentioned in his will* that these awards should be given “to those who, during the preceding year, shall have conferred the greatest benefit on mankind.” (For full text of will, Visit http://www.nobelprize.org/alfred_nobel/will/ )

Since 1901, prizes have been awarded for physics, chemistry, physiology or medicine, literature, and peace; since 1969, a sixth prize, established by the Bank of Sweden, has been awarded in economic sciences. The Nobel Prizes are regarded as the most prestigious prizes in the world.

Little More About winners of Noble Peace Prize- 2014:

Kailash Satyarthi is 7th Indian to win a Nobel peace prize. Satyarthi is an Indian activist fought against Child Labor in India and in other parts of world. Child Labor means using helpless/poor children in industries or business and making them work hard. It is the most inhuman act. Satyarthi founded the "Bachpan Bachao Andolan" ("Save the Childhood Movement") in 1980 and has acted to protect the rights of more than 83,000 children from 144 countries... He also founded RugMark, an international scheme that tags all carpets made in factories certified as child labor-free. Satyarthi has always kept a low profile; still this activist is a familiar figure for journalists and campaigners working on child labor matters. The Media describes him as “very soft-spoken, articulate, passionate and amiable person.”

Malala Yousafzay is a 17 year old Pakistani activist and this girl is the youngest ever to receive this prestigious Noble Prize. She fought against the ban on Women Education in Pakistan. She demanded that girls be allowed to receive an education. It resulted in the Taliban issuing a death threat against her. On October 9, 2012, a gunman shot Malala when she was traveling home from school. She survived from a coma. She didn’t stop her activities and has continued to speak out on the importance of education. She was nominated for a Nobel Peace Prize and won, becoming the youngest person to receive the Nobel Peace Prize.

For more interesting details on Malala, Read the Book – I am Malala-The Girl who stood up for education and shot by Taliban.
Know what?! Star Fish has No Brains!!!

Is it?! Yes, it’s true...

How come it does everything without brain/thinking process?!

Well, the brain functioning has split into network of nerves (nervous plexus) underneath their skin and throughout its body. That nerve system can sense light, water and temperatures and acts accordingly.

Ok, But...Which part of Starfish body pumps and circulates blood??

Well, they don’t have blood too! But, they use Sea Water System. Their legs have special tubes and sea water is sucked into the tubes and released. This suctions system helps them to move off the ground and in the waters.

Do they have Stomachs at least?!

Yes. In fact, Each Starfish has two stomachs. One is inside the body and another is outside the body to catch the prey. Star fish is actually a carnivore.

Thank God! At least they have Stomachs. Who would live without stomachs?!

Goldfish!!!!

What?!

Yes! Goldfish has NO stomach and still it can live up to 30 years of life span.

How do they digest food without Stomachs?!

Different parts of intestines do the jobs of stomach. Like breaking food, Digesting and absorbing nutrients etc...

At least Goldfish has brains...!

Yes. But, Remember from our past issue’s kid’s page?! They don’t have memory, Goldfish forgets everything and brain gets refreshed for every 30 seconds.

Hmm...Yes. Sure these 2 varieties of fish are crazy... Aren’t they?!

Not 2 varieties! Only one variety of fish we see here...

Weren’t they two types of fish- Starfish and Goldfish...??

Sorry! Actually, Starfish don’t belong to Fish Family. They don’t have scales, gills and tails...

They are Marine invertebrates that belong to Echinoderms.
A life-time achievement award from ACS is not only prestigious by itself but also recognition of the lasting legacy of the contributions made by the individual to the society and improvement of human conditions through innovations in chemistry.

Dr. Satya Majeti spent 36 1/2 years in R&D with Procter & Gamble. He was responsible for over 30 patents and is one of the 9 Scientists from P&G that were awarded as Heroes of 2014 for developing Crest Pro-Health, a single toothpaste formula using paste chemistries that provide efficacy for eight separate oral conditions afflicting the world’s consumers, including: prevention of caries, tartar, stain, plaque, gingivitis, bad breath, dental erosion and treatment of dentinal hypersensitivity.

Sri Satya Majeti talks on this award – “Each year, the American Chemical Society recognizes chemical scientists whose work has contributed to the successful innovation and development of commercial product(s) which have made significant positive impact on the general welfare of the society. ACS receives many nominations which are evaluated by a number of select experts and they choose 4 or 5 companies that qualify for the award. The award is called "HEROES OF CHEMISTRY". For the year 2014, five companies were selected for their innovative products and technologies. One of those five is The Procter & Gamble Company for the development of a highly impactful family of PRO-HEALTH oral care products. These products are now marketed in more than 50 countries and have made/continue to make a phenomenal contribution to the improvement of oral and whole body health of millions of global consumers. I was one of the key development scientists that solved some very difficult active selection/stabilization problems for which I (P&G) received several key patents. As a result, I along with 8 of my colleagues was given the Heroes award at the ACS national convention in San Francisco on Aug 10.”

**TARANGiNi, On behalf of its community, once again congratulates Dr. Satya Majeti on winning this Prestigious Life Time Achievement Award.**

---

**Bit About Mr. Majeti…**

- **HOME TOWN:** Kakumanu, Town in Guntur District of AP.
- **Obtained M.Sc. degree in Organic Chemistry from Banaras Hindu University.**
- **Attended Graduate School at UCLA, Los Angeles, CA and obtained a Ph. D. in Organic Chemistry in 1969.**
- **Married Vimala Majeti, a Graduate from UCLA.**
- **Started working as Research Scientist for P&G, Cincinnati.**
- **Family: 2 Sons and 3 Grandchildren.**
- **Majetis are Founding Members of TARANGiNi.**

---

**American Society of Chemistry (ACS) presents its lifetime achievement award**

“Chemistry for Life – 2014 Heroes of Chemistry Award”

to

Satya Majeti
The Procter & Gamble Company

for Crest Pro-Health Dentifrice, a single toothpaste formula for the prevention of caries, tartar, stain, plaque, gingivitis, bad breath, and dental erosion, as well as the treatment of dental hypersensitivity.

August 10, 2014
San Francisco, CA

---

**TARANGiNi is elated to share this news and heartily congratulates our local Scientist lives in Cincinnati- Mr. Satyanarayana Majeti (Satya Majeti) for winning LIFETIME ACHIEVEMENT AWARD- Chemistry for Life – 2014 Heroes of Chemistry Award from ACS(American Chemical Society)****.**

---

**ACS-** is a scientific society, based in the United States with members across the globe that supports scientific inquiry in the fields of chemistry, chemical engineering and related fields. Founded in 1876, the ACS currently has more than 161,000 members. ACS is the world’s largest scientific society and is one of the leading sources of authoritative scientific information.
Congratulations India on successful mission, Mangalyaan!

India’s interplanetary mission- Mars Orbiter Mission (MOM), also known as Mangalyaan spacecraft successfully entered itself into the orbit around the Red Planet, Mars on Tuesday, September 24, 2014 while the congratulations from all around the world sparkled along!

With this success, India has become the first country EVER to enter Mars orbit on the first attempt! Congratulations INDIA!!

India’s space agency has become fourth entity, (after the United States, the European Space Agency and the former Soviet Union) to successfully place a spacecraft in Mars orbit.

This Spacecraft, MOM was launched and blasted off from India’s(ISRO’s) Satish Dhawan Space Center, Sriharikota, India on Tuesday, November 05, 2013. After 10-month, 400-million-mile flight, it reached into the Orbit of MARS as scheduled.

The $74 million MOM mission is designed for a technology demonstration, to show that India can indeed design a spacecraft to Mars. Having a camera and four scientific instruments, this spacecraft will study the planet’s surface and atmosphere.

Just for example, MOM would search for methane, a key target for researchers looking for any signs of life on Mars. Living things produce more than 90 percent of the Methane in atmosphere of Earth. And the gas is thought to disappear relatively quickly from Mars’ air, meaning that any methane traced there would have been produced recently. So finding any Methane traces would mean a lot for further research on ‘Life on Mars’.

Just days before MOM, NASA's MAVEN (Mars Atmosphere and Volatile Evolution Mission) spacecraft entered the Martian orbit on Sunday, 22nd September, 2014. The Space Agencies, ISRO and NASA centers will be sharing information from the research with each other. MOM and MAVEN go around the red planet and scientists of India (ISRO) and USA (NASA) share the data from these two missions. This is the first time in the history of Mars exploration that two space crafts of two countries have reached the Mars orbit in such a quick succession.
TARANGiNi Members hOpPeD A little, jUmPeD a little, played a little too. Everyone had yummy tummy time throughout the picnic time. Everyone experienced a fun gala time during the Annual Picnic Time.

TARANGiNi held its annual summer picnic on **August 24th 2014** in ‘**William Harbin Park**’. Many fun games were played during this picnic and everyone enjoyed the day at its best.

Isha and Mr. Lavangam are newly married couple and Isha doesn’t know her husband’s kitchen skills yet. One morning, while rushing to office, she picked the Morning Drink cup he prepared. After reaching office, she called her husband and thanked him for morning drink.

Their conversation...

Isha: Not sure if it was supposed to be coffee or tea, but thanks a lot for it, dear!
Mr. Lavangam: Well, in the morning, I made both Tea and Coffee for you. Not sure what you picked. BTW, what did it taste like, dear?
Isha: It tasted like gasoline!
Mr. Lavangam: Well dear, that would be the tea. The coffee that I make tastes like turpentine.

Quick Term:
Have you ever wondered what we call those little plastic things on the end of shoelaces?
They’re called ‘Aglets’?! Don’t they sound like Anklets?!
TARANGiNi SPORTS TIME!
